

SAY GOODBYE TO THE OLD FASHION

One-Click installer is now available to all customers

The LTS (one-click installer) includes Appstudio, Panda software, Calibrator processor, PA drive all in one click. The LTS is a format of folder, you just need to click the installer in the folder to start installation.

We designed to enhance customer experience while it saves time and energies.

Where to find the LTS package?

You can find LTS on the google links or on the flash drive packed within the box. (New delivery after August 2022)

PA 1.0.2 (The installment applied to the computer with a graphic card of 20 series or 10 series. Ex. RTX 2060/ GTX 1660 Ti)
