3Shape TRIOS

Better for them. Better for you.
Better patient care today and tomorrow.

Step into the world of digital dentistry with 3Shape TRIOS® and discover a long list of opportunities. Opportunities that surpass a faster, easier and more comfortable way to take impressions.

You’ll have the opportunity to engage and counsel your patients even more. To expand your expertise with new treatment options, in more cost-effective ways of taking care of your patients and business.

It comes with the peace-of-mind you experience with a proven product that tens of thousands of dentists use successfully every day. And, with the support of a company that started the digital dentistry revolution over 20 years ago.

3Shape TRIOS. Better for them. Better for you.

Welcome to the world of TRIOS digital dentistry.

Dental treatments that reflect your standards.
Precise digital impressions support treatment outcomes your patients will be happy with. Outcomes that live up to your high standards. Because you can rely on every dental impression taken with a TRIOS® intraoral scanner being as accurate as a conventional impression – or even more so.¹

Patient engagement you can sense.
Boost case acceptance by engaging – even more – with your patients. Together, TRIOS 3D color scans and the TRIOS engagement apps create a perfect opportunity to show patients their unique dentition and help them understand their treatment needs. They’ll notice the difference. And, you’ll feel the engagement.

² Joda T et al. 2016, Time efficiency, difficulty, and operator’s preference comparing digital and conventional implant impressions: a randomized controlled trial
An experience that feels just right.

Your digital experience should make you smile. So we’ve partnered with more than 20,000 labs and solution providers to make it easy for you to find the one you want. It’s fast, and easy. Plus, TRIOS intraoral scanners fit perfectly in your hand and make scanning a pleasure. Your patients will prefer it, too.

A digital practice you can be proud of.

We think you’ll find your patients are happier and your practice is more successful with TRIOS intraoral scanners. And we’ll make sure you have everything you need to get started quickly. Plus, you decide which treatments you want to start with. Then – if you want – you can explore new indications at your own pace.

TRIOS 3 Wired.
NEW! Introducing TRIOS 5.

Intraoral scanning that simply makes sense.

TRIOS 5 sets a new standard in patient protection and infection control. It’s hygienic by design. It features a closed autoclavable scan tip and mirror. And an ultra-thin, snug and nearly invisible sleeve minimizes risk of cross-contamination.

Perfectly balanced, it’s made to fit comfortably in every hand. Including yours. It’s also our smallest and lightest scanner to date. The ScanAssist engine delivers precision scans effortlessly and efficiently. Every time. And sensory feedback guides you as you go to make scanning smoother and faster.

Learn more at 3Shape.com/TRIOS5

Simply ergonomic.

30% smaller and 20% lighter than TRIOS 4. Our smallest and lightest scanner to date. Made to fit perfectly in your hand.

Simply effortless.

ScanAssist makes TRIOS 5 our easiest-to-use. LED and haptic feedback guide you as you scan. One battery charge will last you all day.
Simply TRIOS 5!

Intelligent scan technology designed for improved hygiene, next-level ergonomics, and effortless scanning. The ultimate TRIOS, scanning made simple.

Simply hygienic.

Re-designed autoclavable scan tips and body sleeves significantly reduce risk of cross-contamination. Hygiene by design.
Experience unparalleled clinic-to-lab workflows with 3Shape Unite. Unite brings world-leading dental companies, solutions and labs together through the world’s most collaborative platform. Manage all your cases with choice and ease – from TRIOS scan to treatment completion. You achieve the great case results you strive for, and your patients get the treatment outcomes they deserve.

About 3Shape

3Shape was founded in 2000 by two people determined to unlock opportunities in 3D digital technology. From two, we’ve grown to over 2,000 – and from our beginning in Denmark, we’re now present in over 100 countries around the world.

Our singular purpose remains the same – to advance and connect medical professionals and patients.

We drive progress in digital dentistry with groundbreaking, industry-recognized scanners for clinics and labs. And connect dentists and technicians with software workflows that just flow. We advance and coach professionals on every step of their digital journey – helping to truly elevate the customer experience.

Our impact is reflected in the results we achieve. Every second of every day, our award-winning products restore the confidence of a patient. Decisively going beyond products, we bring ongoing training and education that not only helps professionals stay relevant, it puts them ahead of the game.

We actively advance and connect dentists and lab technicians – the people who are the backbone of the industry.
